NATURAL HORMONE PIONEERING THERAPY

BeauCareline® Natural Contour Cream

Let Your Youthfulness Shines

[HORMONE IMBALANCE]

Hormones are like chemical substances which convey signals to control functions of cells. Its functions vary from formation and combination of emotions to the control of heartbeat. People tend to suffer from cancer or other degenerating diseases caused by the process of ageing, the human system, especially the immune system that deteriorate while imbalance of hormone is the main factor of ageing.

NATURE'S GIFT FOR REPLENISHING YOUTHFULNESS

MODERN SCIENCE HAS MADE A DISCOVERY ON HOW TO HELP TO PROLONG HUMAN LIFE

[HARMONISING LIFE IN THIS CENTURY]

K-BeauCareline Natural Contour Cream is based on Natural Hormone Pioneering Therapy which avoid imbalance of hormone caused by environment pollution, stress and side effects of conjugated oestrogen. It helps to prevent accelerated ageing and effectively.

Features of K-BeauCareline Natural Contour Cream:

- ◆ It contains hormone precursor essence, which is extracted from natural herbs and later converted into natural hormones in the human body. Hormones precursor essence helps to prevent the side effects of conjugated oestrogen.
- ◆ It is converted into various hormones according to the needs of the body. Due to the imbalance of hormones, it helps to avoid diseases and ageing.
- ◆ The molecules of the cream is developed with a modern biochemistry that may enter the blood directly through the skin, move into the organs through fat soluble substances such as haemoglobin and converted into natural hormones essential to the human body. The substances that are absorbed through the skin, avoid being decomposed by the gastric acid, the liver or the gall which decomposes 90% of useful substances. The absorption places fewer burdens upon the liver.
- ◆ It is applicable to both men and women.
