

BioBOOSTERPLUS

*Special Formula
to Achieve
High Production*

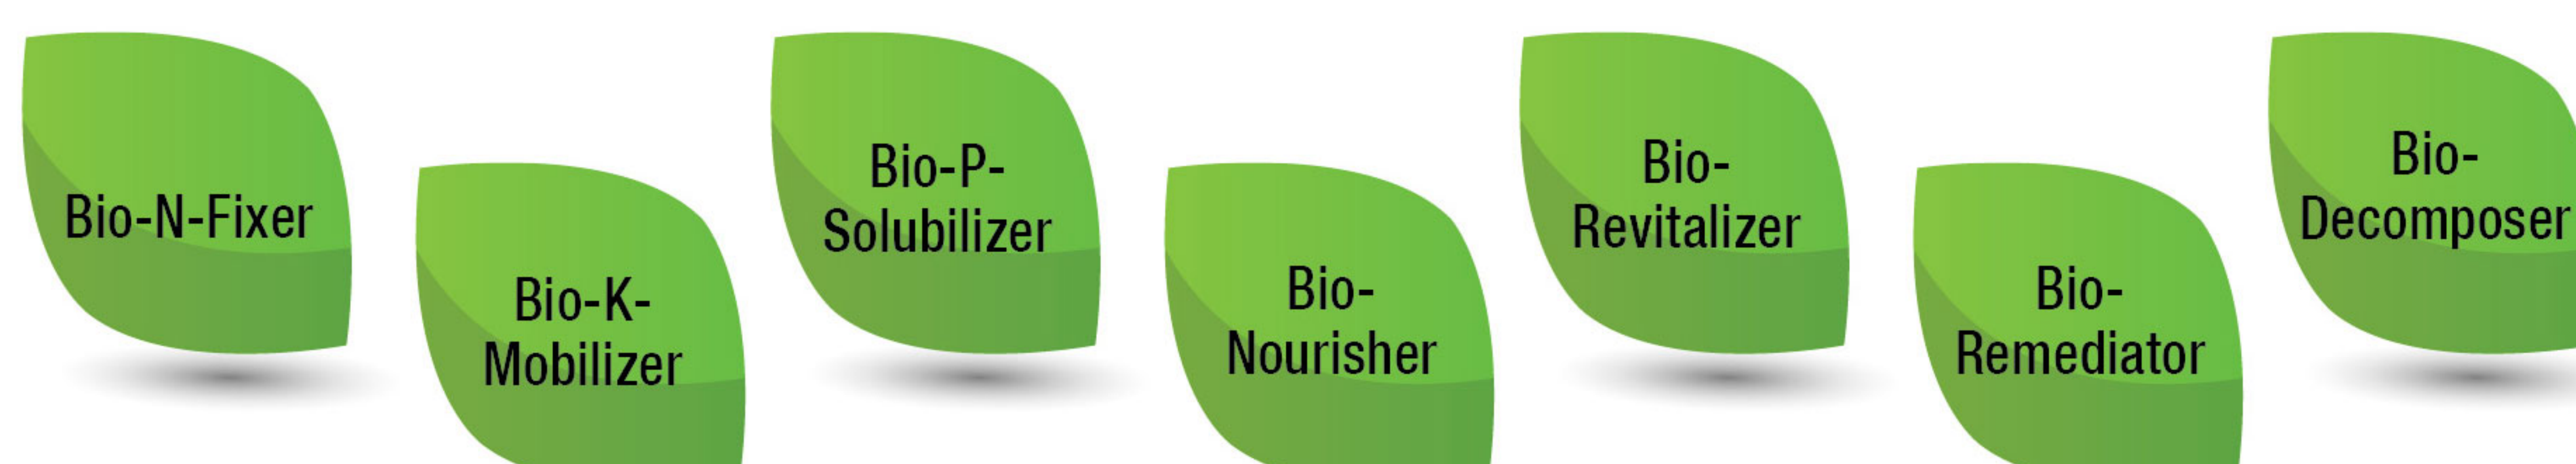

Using an international award-winning biological-based formula, **K-Bio Booster Plus** is able to nourish and rejuvenate our plants and crops with the energy imparted from a variety of beneficial microorganisms. The formulation is enriched with amino acids, fulvic acid, macronutrients (N, P, K), trace elements, and seaweed extract for healthy soil and vigorous plant growth.

K-Bio Booster Plus (4 liters)

K-Bio Booster Plus (1 liter)

7 groups of Friendly Bacteria (Microbes) as key to excellent plant booster

Benefits of K-Bio Booster Plus:

- Revitalize the soil
- Rejuvenate the root system
- Promote vigorous growth of plants
- Increase crop yield
- Reduce chemical fertilizer usage
- Increase water and nutrients uptake
- Establish sustainable production
- Produce healthier and safer food

BioBOOSTERPLUS

Can be used on:

- Most fruits
- Varieties of flowers
- Oil Palm
- Leafy vegetables
- Cucumber
- Chili
- Eggplant
- Lady finger
- Paddy
- Black pepper and various other crops

The Key To Healthy & Beautiful Plants

Amino Acid - basic unit in protein biosynthesis. Amino acids in essential quantities can increase yield and the quality of crops.

Fulvic Acid - the strongest plant-active humic acid compounds. It is a plant growth stimulator that normally contains at least 70 minerals and trace elements to help increase plant metabolism and nutrient intake.

Macronutrients (N, P, K) & Trace Elements

Healthy Foliage	N		Nitrogen <ul style="list-style-type: none"> • Aids plants in making proteins that are used for healthy foliage growth
Strong Roots	P		Phosphorus <ul style="list-style-type: none"> • Aids in strong root growth as well as flower development and larger seeds
Healthy Plants	K		Potassium <ul style="list-style-type: none"> • Aids in overall plant health and production of the crop

Who is suitable to use K-Bio Booster Plus?

- ✓ Farmers who wish to improve their crop yield
- ✓ Individuals who want to improve their plants' health
- ✓ Individuals who want their flowers to have beautiful appearance
